

SPECIFICATION AMENDMENTS

Please rewrite the paragraph running from line 18 to line 23 of page 11 of the "Clean Copy" of the Specification filed 09 October 2008 as follows:

The support structure 7 has vertical rod-like posts 9 extending through the box-like reinforced end portions 6 and anchored in same inward of the supports 2. Accordingly, these rod-like posts 9 extend upwardly and downwardly from the reinforced end portions 6 and carry at their ends spray pipe carrying elements 10 connecting two posts 9 with one another.
